

CLARITY'S TRADE-IN PROGRAM!

TRADE IN & GIVE BACK

Trade in your old hearing aids to new, advanced technology. Your old hearing aids will be donated to the Clarity Audiology Community Project to benefit qualifying low-income individuals in our community who are in need of professional hearing healthcare. (If you know anyone in need of hearing care who can not afford hearing aids, please send them our way—we can help!)

UPGRADE TO THE LATEST TECHNOLOGY

Hearing aid technology has undergone tremendous advancements in recent years—improving the clarity of speech in quiet and noise. Digital chip advancements make hearing more effortless so that rather than straining & guessing, you can focus instead on enjoying your conversations with friends & family. Easy Bluetooth connection in new hearing technology allows you to hear your phone and even TV wirelessly through your hearing aids! Reliable, rechargeable options are also available so that you no longer need to bother with buying or changing small batteries.

SAVE UP TO \$700!*

Trade in your current hearing aids under 3 years old: SAVE \$700 off a new pair

Trade in your current hearing aids under 4 years old: SAVE \$500 off a new pair

Trade in your current hearing aids under 5 years old: SAVE \$300 off a new pair
